- 2. Kindly take care of your belongings.

PRINCIPAL'S MESSAGE

Dr. Manoj Kumar Khanna

Founded in 1917, Ramjas College today boasts of a spacious campus, state-of-the art infrastructure and highly acclaimed faculty trained at leading universities in India and abroad. At Ramjas, we believe in providing holistic education. The primary stress is on achieving academic excellence; however, we also provide various opportunities to help students enhance their knowledge and skills in areas that we believe are important for their all round development. The broad philosophy at Ramjas is to nurture today's youth to face tomorrow's challenges.

The world-renowned products of PEARSON Educations Ltd. have helped to engage, stimulate and connect students and teachers to the 21st century educational needs. The various online and interactive resources such as online homework, tutorial, and assessment products builds career readiness and advance instructional skills. The educators can also use the contents—videos, simulations, lecture slides, flash cards and instructor manuals— to promote classroom discussions and create a dynamic and interactive environment. We are thankful to PEARSON Education Ltd. for their association and financial support in making this endeavor possible.

WORKSHOP CONVENOR'S MESSAGE

Dr. Amit Bhattacharya

Dr. Hardeep Kaur

Digital learning empowers teachers to build courses using the best content and understand individual student needs to improve class performance. The One-Day Workshop on Digital Learning at Ramjas College on 25th September 2018 is organised in association with PEARSON Education Ltd., India. This workshop at Ramjas College has received more than 200 registrations (students and faculty members). The primary objective of this workshop is to make higher education more effective, accessible, and skill-based to the students and teachers through innovative products & services by PEARSON Education Ltd.

PEARSON Education Ltd. is the world's largest learning company, which creates a learning environment for all kinds of people (students and teachers) to take the advantage of latest digital learning platforms (both online and offline). Their inventive and customized digital products- pre-loaded test banks, automated grading features, tutorials- have surely changed the way students learn and teachers teach in the classrooms. We are sure that the e-learning through world-class technology and range of personalized solutions will enhance our imagination and possibilities.

We are thankful to Dr. Manoj Kumar Khanna (Principal, Ramjas College) and IQAC Members for their continuous support and encouragement. We offer our sincere gratitude to PEARSON Education Ltd. for entire logistics, technical and financial support. We acknowledge the efforts of Mr. Vibhor Kataria and Ms. Mahima Mathur of PEARSON Education Ltd. for their continuous and tireless support in organising this workshop.

ABOUT PEARSON EDUCATION LTD., INDIA

The origin of Pearson goes back as far as 1724 when Thomas Longman founded Longman. Pearson was actually founded in 1844 by Samuel Pearson as S. Pearson and Son, a small building firm in Yorkshire in the North of England. By the 1880s, Pearson became one of the world's largest building contractors at a time when the industry controlled development of the transportation, trade and communication links that fuelled world economies. In the intervening years, we have been and done many different things. Today, we are focused solely on education - a very different company than the one our founder had envisioned. But his imagination for harnessing new technologies, his bravery of vision, and decency to the people and cultures he worked with are values that still underpin everything we do all these years later.

We're the world's learning company, with expertise in educational courseware and assessment, and a range of teaching and learning services powered by technology. Our products and services are used by millions of teachers and learners around the world every day. Our mission is to help people make progress in their lives through learning — because we believe that learning opens up opportunities, creating fulfilling careers and better lives. We work closely with teachers, learners, researchers, authors, thought leaders, and local experts to put education in the hands of more people around the world, in more inspiring ways.

SPEAKER PROFILE

Shri. Vibhor Kataria Senior Manager e-Learning, Pearson Education Ltd.

Vibhor is Senior Manager of Digital Products and Services. A software engineer by education, Vibhor found his niche in the publishing industry and has been associated with it for close to 20 years. During this time, Vibhor has worked across product development, product support as well as sales.

Vibhor is extremely passionate about technology based education solutions, and is always keen to interact with students and faculty to better understand pedagogical interventions for facilitating learning and teaching.

During his career in the publishing industry, besides, being associated with print publishing, Vibhor has been involved in promoting eBooks as well other state-of-theart technology based education solutions.

Session 1: Digital Learning Environments

Session Topics:

• Digital Learning

This session sets the stage for digital learning in which we will cover the onset of technology based educational solutions. This gives a background note for how digital learning has evolved.

Artificial Intelligence: Adaptive Learning

Artificial intelligence [AI] is currently the buzz word and state of the art technology. AI can have a profound impact on education. During this session, we will showcase the various modules that are offshoots of AI, and how they facilitate the learning process.

Data Analytics: Reporting Dashboard

Currently, there is a lot of focus on outcome-based education. Outcome-based education refers to the concept of understanding the impact of teaching on learning. Data-analytics, like AI, is an important innovation that can help understand teaching and learning outcomes. Riding on a technology backbone, in this session we will cover the notion of outcome-based education and how technology can help us achieve and understand meaningful measures.

• Activity: Pre-Class, In-Class and Post-Class

To wrap up the current session, we will classify different elements of the teaching pedagogy into pre-class, in-class and post-class categories.

Session 2: Improving English Skills

Session Topics:

• English Skills: L-S-R-W

In this session we will understand the different facets of English language communication skills, how these are categorized and impact of each of these skills.

• Placement Levels

In order to effectively measure the English language proficiency, various international scales of English language proficiency exist. In this session, we will familiarize with such scales.

stil May
