Sub: Job and Education opportunities in Maritime Sector in India - Reg.

Dear Sir/Madam,

You are aware of the efforts taken by the Government of India to become a USD 3 trillion economy within the next few years. The Maritime Sector is an important sector with high growth potential. The key initiatives of the Ministry of Port, Shipping and Waterways viz., Sagarmala and MIV 2030 are intended to generate jobs for the Indian youth in the near future.

The Indian Maritime University (IMU), a Central University, established by an Act of Parliament in 2008, is focused on imparting education in aspects related to Maritime Sector - Marine Engineering, Nautical Sciences, Naval Architecture, Ocean Engineering, Ship Building and Repair, Logistics Management, Port Management etc.

Our experience over the last few years indicates that a very large number of Indian students are unaware of the potential growth and job opportunities in the Maritime Sector.

Pamphlets on education opportunities at the Indian Maritime University are placed in Annexures I & II.

May, I request you to kindly share the information along with annexure and encourage the students to participate in the '**Growth Story of India**'?

Thanking you,

To All Principals
All HODs.
