BULLETIN OF INFORMATION

UNDERGRADUATE ADMISSIONS

UNIVERSITY OF DELHI

Academic Year 2023-24

Message from the Hon'ble Vice Chancellor

Dear Aspiring Students

I extend a very warm welcome to all those who are aspiring for admission for the academic session 2023-24 to the University of Delhi, a premier University with a century old rich legacy.

It gives me immense pride to share with you that our University, established and incorporated in 1922 through an Act of the then Central Legislative Assembly, has completed its hundred glorious years on 1st May 2022. The University, which comprised of 03 Colleges, 02 Faculties, 08 Departments with 750 students in 1922, now has expanded to over 90 Colleges, 16 Faculties, and 86 Academic Departments, spread over 407 acres across Delhi, with a student strength of more than 6.7 lakh. The University has students from all states of Bharat and reflects a microcosm of the rich diversity of this country.

You would be happy to know that the University of Delhi is a premier university acclaimed nationally and internationally. The National Institutional Ranking Framework (NIRF) for the year 2022 had placed the University at 13th rank among Indian universities. As per the Centre for World University Rankings (CWUR), the National Rank of the University of Delhi is 6th for academic excellence in the year 2022-23. The University has also been ranked high by various International Ranking bodies; among them, the Times Higher Education Asia University Ranking had placed the University between 201-250 and as per the QS World University Ranking, the University is stated to be between 521-530, and the QS Asia University Ranking (2023) for the University is 85.

The University of Delhi is a pioneer in providing the world class academic and research platforms to its students in terms of teaching, learning, and research. Continuing with its legacy of being a torchbearer in achieving academic excellence, it has implemented the National Education Policy (NEP) 2020 at its undergraduate programmes through its Undergraduate Curriculum Framework 2022 (UGCF 2022) from the academic year 2022-23. The UGCF 2022 has been formulated with a student-centric approach in providing academic flexibility of choosing the programmes/disciplines of study, developing academic pathways throughselection of academic, multidisciplinary, skill-enhancement, value-added, and ability enhancement courses, thereby optimizing the students' strength to the best possible extent. Provision for internship, apprenticeship, social outreach, projects, entrepreneurship, research and innovation, which are the fundamental principles of the National Education Policy 2020, have been embedded in UGCF 2022. The university endeavors to nurture the innate potential of each individual with an aptitude for community service, problem solving, analytics and research with strong sense of nationalism and ethics.

The University also took a lead in overhauling the undergraduate admissions from the academic sessions 2022-23 by adopting a single-entry point for admissions to all its undergraduate programs through Common University Entrance Test (CUET). The University established a paradigm shift in ensuring equal access for enrolment of candidates from different disciplines, examination boards, regions, and demographics across the nation through CUET.

By making a transition from Board-marks-based admissions to a single-entrance-based admissions, the University of Delhi witnessed several changes which are indeed welcoming. A landmark achievement of the admission cycle 2022-23 has been the formulation of a new admission policy through the Common Seat Allocation System - UG 2022 (CSAS-UG 2022). Through CSAS-UG 2022, the University has moved towards a complete student-friendly online admission process, centralized allocation of seats based on CUET merit scores, and preferences opted by candidates. Implementing the One-Applicant-One-Allocation policy ensured that all meritorious candidates could get a seat of their preference in a transparent, fair, and inclusive manner in an expedited manner.

From the academic session 2023 onwards, the University has extended its policy of single admission exam to its Postgraduate courses as well. From this year onwards, admissions to all postgraduate courses of the University shall also be made through Common University Entrance Test-PG (CUET-PG).

As the academic fraternity continue to commemorate the legacy and contribution of University of Delhi in its effort to create all-rounded, multi-skilled and socially responsible global citizens, I, once again welcome you to this prestigious University and look forward to your valued role and contribution in furthering the strength and glory of this much-acclaimed institution, in particular, and to the nation, at large.

Best Wishes!

Yogesh Singh

The University of Delhi is one of the premier Institutes of the Country with a venerable legacy and international acclaim for the highest academic standards, diverse educational programs, distinguished faculty, illustrious alumni, varied co-curricular activities and state of art infrastructure. Over the many years of its existence, the University has sustained the highest Global standards and best practices in higher education. Its long-term commitment to nation-building and unflinching adherence to universal human values are reflected in its motto: 'Nishtha Dhriti Satyam' 'निष्ठा धृतिः सत्यम्' (Dedication, Steadfastness and Truth).

Established in 1922 as a unitary, teaching and residential University by the Act of the then Central Legislative Assembly, a strong commitment to excellence in teaching, research and social outreach has made the University a role model and trendsetter for other Universities.

The President of India is the Visitor, the Vice-President is the Chancellor and the Chief Justice of the Supreme Court of India is the Pro-Chancellor of the University. Beginning with three colleges and 750 students, it has grown into one of the largest universities in India with 16 faculties, 86 academic departments, ninety one colleges and over seven lakh students. Over 500 programs offered by the University are approved by Academic and Executive Councils, of which close to 200 programs are being considered for NAAC accreditation purposes. The rest being run in colleges are separately accredited.

Today, the University boasts of as many as 15 major libraries in addition to the libraries in various colleges. The University Science Instrumentation Centre (USIC), houses several sophisticated and high-end research instruments. These instruments are used quite frequently by Teachers and Research Scholars of postgraduate departments of the university and many other institutions in Delhi and its neighbourhood. The University has a fiber-optic network connecting North, South Campuses, all Colleges and Departments.

Study at University of Delhi

Learning Environment: All colleges of UoD provide an engaging and positive learning environment to students. Discussions, debates, peer learning, hands-on experiences and exposure to industry are part of the learning environment. This is accentuated by smart classrooms, effectively aided by Google services.

Library System: Every College and Institute of the University of Delhi has an extensive collection of books, available in print and virtual mode. The list of libraries includes Central Library Complex, FMS Library, Central Science Library, East Asian Studies Library, Law Library, Ratan Tata Library, South Campus Library, Braille Library (On DU Intranet)

Laboratory: University of Delhi boasts of state of art laboratories that enable students to effortlessly divide lessons between practical and theoretical learning and apply their knowledge more effectively. This is evident through the gradual increase in research activities, publications, outreach programs, conferences and seminars, and patents.

Placement: The main endeavor of the Placement cell at the University of Delhi is to get students placed in reputed multinationals, government organisations, NGOs and the private sector. The Placement Cell assures logistic support to the visiting companies at every stage of the placement process by making university infrastructure available to them. The Placement Cell liaisons with corporates to provide suitable jobs and internships for the students completing their studies from the University of Delhi.

Co-Curricular Engagements: University students get a special chance to showcase their talents and skills at the College level and the Inter-University levels. Students get numerous opportunities to participate in NCC camps, cultural festivals, Adventure camps, sports meet and competitions.

Undergraduate Curriculum Framework (UGCF – 2022)

The UGCF - 2022 underlines the historical perspective, philosophical basis, and contemporary realities of higher education as enshrined in the National Education Policy (NEP – 2020) and endeavors to synchronize these cornerstones while charting the road ahead for the state of higher education.

The University of Delhi, a premier seat of teaching, learning, and research in higher education, acclaimed nationally and internationally, has nurtured the quest for reaching the peak in every sphere of education. In its true sense, it has contributed to the nation-building. Moreover, being a central university, it is mandated to act as the torch bearer in expanding the horizons of human resource development through the expansion of higher education. A reflection of such sustained and continued endeavour is amply exemplified in the successive revision of the undergraduate curricular framework over the decades. Keeping pace with the emerging trends in higher education in the new millennium globally and with the critical importance of enriching the youth of our nation, the University always paces with the prevailing priorities of skill development through innovative and practically oriented teaching-learning modes.

To actualize the noble objective, as succinctly brought out in the NEP - 2020, the University of Delhi has endeavored to explore the possibility of further restructuring and refinement of its undergraduate curriculum framework. All such efforts will be in line with the objective and underlying philosophy of the NEP – 2020 which is to capture the imagination of the youth of our nation and depict the contemporary realities of our demographic advantage globally.

The resultant outcome of this comprehensive exercise undertaken by the University of Delhi is the UGCF - 2022 which not only underlines the hearth and soul of the NEP - 2020 in letter and spirit but also goes on to create a teaching-learning framework at the undergraduate level to attract the young minds towards research, innovation, apprenticeship, social outreach, entrepreneurship and similar such areas of human knowledge and endeavour while imbibing the truly charged academic environment of the University of Delhi and its constituent Colleges.

UNDER-GRADUATE PROGRAMS IN SCIENCE, MATHEMATICS, AND TECHNOLOGY

B.Sc. (Hons.) Anthropology

The B.Sc. degree in Anthropology aims for a comprehensive and integrated framework for understanding human beings and humanities and their adaptabilities across time and space dimensions. It deals with all kinds of communities, including tribal, rural, and urban societies. The curriculum is a broad framework that exposes the students to this diversity and helps them understand the challenges, best practices, and biological and cultural adaptive features of communities that have evolved in the process of adaptations and acclimatization. Anthropology as a discipline is oriented toward a holistic and relativistic understanding of humanity from both biological and cultural perspectives on the one hand and from the distant past to the present and also future possibilities.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language from List A in CUET.

Offered by College

B.Sc. (Hons.) Biological Science

Biological Science is an interdisciplinary science and relies on strong foundations of Chemistry, Biophysics, Biochemistry, Botany and Zoology. It aims to study the structure and function of different constituent parts/biomolecules of living organisms and their complex inter-relationships to maintain and perpetuate various life forms. The scope of Biological Science as an interdisciplinary subject is extensive. The Biological Science program at the undergraduate level has been envisioned to emphasize the importance of interdisciplinary nature underlying the study of all the aspects of structure and function of living organisms.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Botany

The B.Sc. (Hons.) Botany curriculum offers the essential knowledge and technical skills to study plants holistically. Students would be trained in all areas of plant biology using a unique combination of core and elective papers with significant interdisciplinary components. Students would be exposed to cutting-edge technologies currently used in the study of plant life forms, their evolution and interactions with other organisms within the ecosystem. Students would also become aware of the social and environmental significance of plants and their relevance to the national economy.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:

B.Sc. (Hons.) Zoology

Through this course, the students will be more equipped to learn and know about different human systems, their coordination and control. The Zoology degree program provides a platform to comprehend classical genetics to understand the distribution of other traits among populations, their inheritance, ethnicity and correlate with contemporary and modern techniques like genomics, metagenomics, genome editing and molecular diagnostic tools. This course's practical and theoretical skills will help design different public health strategies for social welfare. The course has been designed to provide in-depth knowledge of applied subjects ensuring the inculcation of employment

skills so that students can make a career and become entrepreneurs in diverse fields of aquatic biology, sericulture, apiculture etc. After completing this course, students can contribute as policymakers in wildlife conservation, animal preservation and environment protection.

B.Sc. (Hons.) Biochemistry

Biochemistry is the branch of dynamic science that explores the chemical processes within living organisms/systems. The study of Biochemistry aims to understand how all the molecules that constitute living organisms interact to maintain and perpetuate life. It deals with the complexity of living organisms, the microscopic and macroscopic structures within organisms with specific functions, and their systems for extracting and transforming energy from the environment. This course is designed to enable the students to gain theoretical knowledge and hands-on experience in the laboratory. In addition, the course content encourages students to cultivate keen observational skills and develop the ability to analyze and interpret experimental data, making them suitable for future careers in higher education and employment in industry and research institutes.

B.Sc. (Hons.) Chemistry

The BSc (Hons.) Chemistry curriculum offers courses in inorganic, organic, physical, materials and analytical. The courses will train students with sound theoretical and experimental knowledge that suits the need of academics and industry. The courses also offer ample skills to pursue research such as a career in chemistry and allied areas. This programis offered by one of the largest and oldest Departments in the country to produce the best minds to meet the demands of society. BSc (Hons.) Chemistry will help students make an informed decision regarding the goals they wish to pursue in further education and life.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Mathematics/Applied Mathematics

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Physics

Physics is an experimental and theoretical science that systematically studies the laws of nature operating at length scales from the sub-atomic domains to the entire universe. The core areas of study within the disciplinary/subject area of the B.Sc. (Hons.) Physics program are: Classical and Quantum Mechanics, Electricity and Magnetism, Thermal and Statistical Physics, Wave theory and Optics, Physics of the Materials, Digital Electronics, and specialized methods of Mathematical Physics and their applications in different branches of the subject. Along with the theoretical course work, students also learn physics laboratory methods for different branches of physics, specialized measurement techniques, analysis of observational data, including error estimation, and scientific report writing. The latest addition to Physics pedagogy is computational physics, which involves adapting Physics problems for algorithmic solutions and modelling and simulation of physical phenomena.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Mathematics/Applied Mathematics

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Polymer Science

The curriculum of B.Sc. (Hons.) Polymer Science accomplishes excellence in education and research to meet the growing needs of society. This course provides an environment conducive to innovation, creativity, implementation of new ideas and team spirit to foster young and fresh talents. In addition, this course further offers awareness and understanding of polymer science's contemporary trends and growth. This will further be substantiated by enabling students in relevant academic and professional skills through self-reflections and preparing them to contribute to the growing discipline of polymer science and its application in everyday life.

B.Sc. (Hons.) Computer Science

The B.Sc. (H) Computer Science curriculum offers to develop theoretical foundations in computer science to build computational thinking, analytical, and problem-solving skills. The program prepares the students for higher studies in Computer Science and its applications. The course aims to produce skilled graduates with a creative mindset who can recognize a computational problem either in IT industry or society and develop effective solutions. In addition, the students develop expertise in programming skills using contemporary programming languages used by the software industry. It covers core computer science topics like computer systems architecture, data structures, computer networks, operating systems, computer graphics, algorithms, software engineering, database management, theory of computation, artificial intelligence, and information security.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:

B.Sc. (Hons.) Electronics

In recent years, Electronic Science has made unprecedented growth in new technologies, new ideas and principles. The B.Sc. (Hons.) Electronic Science curriculum offers undergraduates a complete package to understand fundamental to advanced electronics. They can equip themselves with electronics fundamentals with a comprehensive skill set compatible with industry 4.0 standards. The exhaustive curriculum will prepare them to pursue higher education and compete in the job market. The program covers embedded systems, advanced computer and data communication, robotics, control systems, VLSI Design and Fabrication, Nanoelectronics, Artificial Intelligence, Internet of Things and others.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Physics + Mathematics/Applied Mathematics + Chemistry

B.Sc (Hons.) Statistics

B.Sc. (Hons.) Statistics is a three-year undergraduate program with specialization in statistics. The program fosters interdisciplinary approach to the study of Statistics, Mathematics, and Computers aiming to promote holistic education useful in handling social, economics, engineering, physical and bio-sciences problems. The curriculum is dispensed using a combination of classroom teaching, project-based learning, practical's, group discussions, presentations, home assignments, industry interactions and exposure, internships and fieldwork. The program has a unique and innovative course structure which engenders creative out of the box thinking

Program Specific Eligibility

B.Sc. (Hons.) Microbiology

The B.Sc. (Hons.) Microbiology program covers a wide range of basic and applied microbiology courses and coursesof interdisciplinary nature. The core courses that are a part of the program are designed to build a strong microbiology knowledge base in the student and acquaint them with the applied aspects of this fascinating discipline. The student is thus equipped to pursue higher studies in an institution of her/his choice and apply the skills learned in the program to solve practical societal problems.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Home Science

The B.Sc. (Hons.) Home Science curriculum offers the students the requisite knowledge, skills, and aptitude in all the areas of Home Science. As a discipline, Home Science integrates the ingredients of the sciences, social sciences, and technology to facilitate the study of and enhance the quality of human life. Its approach is therefore inherently interdisciplinary. As a result, students gain employment in research organizations, food and textile industries, dietetic practice, education, child development domains, accreditation of green buildings, strategic planning and communication technologies.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Biology/Biological Studies/Biotechnology/Biochemistry + Physics + Any one subject from either List B1 or List B2

B.Sc. (Prog.) Applied Physical Science with Analytical Methods in Chemistry & Biochemistry

The course reviews the structure of the atom, which is a necessary pre-requisite in understanding the nature of chemical bonding in compounds. It provides basic knowledge about ionic, covalent and metallic bonding and explains that chemical bonding is best regarded as a continuum between the three cases. It discusses the Periodicity in properties with reference to the s and p block, which is necessary in understanding their group chemistry. The course is also infused with the recapitulation of fundamentals of organic chemistry and the introduction of a new concept of visualizing the organic molecules in a three dimensional space. To establish the applications of these concepts, the classes of alkanes, alkenes, alkynes and aromatic hydrocarbons are introduced. The constitution of the course strongly aids in the paramount learning of the concepts and their applications.

B.Sc. (Prog.) Mathematical Science

A well-structured Mathematical component in B.Sc. (Prog.) Mathematical Sciences empowers the students to: Solve problems using a broad range of significant mathematical techniques, including calculus, algebra, geometry, analysis, numerical methods, differential equations, probability and statistics, along with hands-on learning through CAS and LaTeX. One of the program's aims is to combine the principles of physics and chemistry, as supported by mathematics, to describe the foundational concepts of the physical world and apply these concepts to new situations. Collaborate with others, including multidisciplinary groups, to solve scientific problems and recognize ethical issues in each profession; logical question assertions and recognizing patterns are other highlights of the course.

Program Specific Eligibility

B.Tech. Information Technology and Mathematical Innovation (IT & MI)

This unique course offered at Cluster Innovation Centre, is designed to inculcate an innovation mindset as part of the curriculum and pedagogy. It is a 4 years course with two semesters per year. This course aims to build strong

analytical skills through Mathematics and application skills of Information Technology (IT). Skilled graduates with a creative mindset for innovation and entrepreneurship are another highlight of the course. In addition to this, the course is specifically designed to boost undergraduate research. This course provides a choice-based credit system where the students can take courses of their choice, learn at their own pace, undergo additional courses to acquire more than the required credits, and adopt an interdisciplinary approach to learning.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:

B.Sc. Physical Education, Health Education & Sports B.Sc. (PE, HE & S)

In this program, the students will be taught to meet the health, physical fitness, and positive lifestyle-related challenges faced by society members. Besides being trained in numerous sports, the program has compulsory learning of foundation and allied sports science courses. The research element embedded in the program helps students learn the data collection technique, evaluation, and interpretation of the results. This will enable students to provide necessary feedback in the related area of investigation. The students are provided with various choices in the skill enhancement course directly related to implementing knowledge in society. This course creates a strong foundation for all forms of teachers training courses in physical education & sports sciences at various levels.

Program Specific Eligibility

Candidates must appear in both CUET and Performance-based test.
Candidates must appear in CUET in any of the following subject combinations:

Combination I: Any one Language from List A + Physical Education / National Cadet Corps (NCC) / Yoga from List B2 + Any two subjects out of which one should be from List B1

OR

Combination II: Any one Language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2

AND

Performance-Based Test

Merit will be calculated by considering the combined 'CUET score (50% weightage) and Performance-based test score (50% weightage)'

CUET score will be the best CUET score obtained from any one of the above-mentioned combinations of subjects.

UNDER-GRADUATE PROGRAMS IN COMMERCE & MANAGEMENT

B.Com. (Hons.)

B.Com. (Hons.) program of the University of Delhi is designed to enable and empower students to acquire knowledge, skills and abilities to analyse and synthesize the contemporary realities pertaining to the business. This course provides for maintaining and sustaining existing businesses in the face of the winds of change and competition and a desperately needed perspective of sustainable growth. This program aims to instill conceptual understanding to equip students to deal with today's business realities and prepare them to drive and face the challenge of tomorrow. It also exposes the students to the world of technology and digitization in the relevant field as envisaged by scholars and policymakers. As mandated by the Government of India, this course is designed to help cultivate an entrepreneurial mindset and skills.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Any one Language from List A + Mathematics/Applied Mathematics + Any two subjects out of which at least one should be from List B1

OR

Combination II: Any one Language from List A + Accountancy/Book Keeping + Any two subjects out of which at least one should be from List B1

B.Com.

Commerce is visualised as a link between society and business. The nature and purpose of interaction between both have undergone tremendous change with time. Information technology has re-modelled the shape and design of the business, engendering the metamorphosis of its very nature and the matrix of societal functioning. Recognising the implications of this change, the B.Com. Program aims at building in students an understanding of the functioning and premise of the business world. To achieve this, the program offers an opportunity for students to know different aspects of organizational functioning, financial systems, understanding of the economy, laws governing business, strategies adopted by businesses to reach society, etc. The program also provides the students an opportunity to explore, experiment and equip themselves to serve society not as employment seekers but as an entrepreneur and job creators.
