

We are delighted to inform you that the Department of Zoology, Miranda House has recently celebrated its 50th anniversary, marking five decades of excellence and alumni achievements. The Department is committed to providing outstanding opportunities for students and faculty by organizing various lectures, workshops, symposiums, and conferences.

As part of these ongoing efforts, we are organizing a Popular Lecture Series on "Biotechnology: A Catalyst for Human and Environmental Development" sponsored by the Department of Biotechnology, Ministry of Science and Technology, Government of India. The first two lectures of this series were held on October 4, 2024, wherein two eminent scientists had graced us with their presence, experience and knowledge. Now, the Department is organizing the second session of this lecture series on October 22, 2024.

The details are given below:

Speaker: Dr. Mukesh Thakur (Scientist, Zoological Survey of India, Kolkata)

Title of the talk: Speciation and Conservation: the power of genetic in monitoring wildlife and safeguarding biodiversity

We are pleased to invite you and your faculty and students of the college, particularly from Biological Science departments, to attend this lecture series. We request you to send 10 students accompanied by at least 2 faculty members to attend the event. Registration is free of cost and E-certificates will be provided to all the participants.

The registration link is [Click here](#) with last date of registration October 17, 2024. The poster of the event is hereby attached for your perusal.

For further inquiries, please do not hesitate to contact us.

Looking forward to enthusiastic participation from your college.
