## STUDENT INFORMATION SERVICES (SIS)

The student information services (SIS) system is an important innovation introduced in the college to facilitate better management of information and data relating to academics and general administration. It is accessible through the college website [www.ramjas.du.ac.in](http://www.ramjas.du.ac.in). Whereas the website carries a host of information on the college, the login option for SIS is restricted to students, staff and the administration of the college. The system is web based and accessible at any location through the Internet.

All academic and administrative data relating to students are uploaded, stored, processed and retrieved through the dedicated software that runs SIS. From tutorial management to term wise attendance, from midterm marks to assignment grades, from back end reports to all important information (like syllabus, important dates, etc.), SIS is primary driver for information management in Ramjas. SIS ensures total transparency and ease of information sharing. Students are actively encouraged to use SIS on a regular basis.
