

Maintenance of Garden

STEP 1: Proper Care of Plants/Trees

1. Plants and lawns of the college should be watered on regular basis.
2. All the lawns of the college are to be mowed and sweep up regularly.
3. Trees and plants/shrubs in the college premises are to be pruned as and when required.
4. After cleaning of the garden the waste is to be kept at a designated place to be removed by municipal authorities.
5. Seasonal flowers should be planted from time to time.

STEP 2: Lawn Care and Signage in Garden

1. Students should be discouraged from playing and eating in the lawns.
2. Benches in the lawns should be cleaned properly on regular basis.
3. There should be proper signage of Trees and Plants.
